

Instructional Design Support

Clarity

Editing Lesson Content for Clarity

- e.g. clarifying instructions

Review of Information Architecture

- e.g. revising or reorganizing course/lesson material

Active Learning

Active Learning Strategies

- e.g. activities that promote analysis, synthesis, & evaluation of learning material

Interactive Learning Activities

- e.g. knowledge checks

Presentation

Instructional Design Strategies

- e.g. designing, organizing, & formatting for optimal learning

Motivation

- e.g. conversational tone, humour, & respect for autonomy

Resources

Graphic Design & Technical Help

- e.g. backgrounds, graphics, & diagrams
- help with Bongo, Kaltura, H5P

Best Practices & Resources

- e.g. online teaching & learning strategies, reusable assets

Together we can ensure:

Content is succinct
and organized effectively

Learning material
is presented appealingly

Students are
actively thinking

You have the tools
you need

Why it matters:

Clear communication saves time
and prevents confusion.

Presentation strategies can help students
see the big picture, make connections, and
maintain a sense of flow.

Active learning strategies address
how the learning content is framed
to encourage deeper learning.

Access to useful resources allow you
to develop lessons more efficiently.
